GRANT'S GREETING.

HE MAKES A SPEECH TO THE MER-CHANTS.

He Sees how Greatly our Foreign Trade can be Increased-Mayor Stokley Replies.

PHILADELPHIA, Dec. 19 .- The Philadelphia Commercial Exchange gave General Grant a public reception at noon to-day, at the Exchange building which was very beautifully decorated. inside and out, for the occasion. In response to an address of welcome from Mr. Baily, president of the exchange, General Grant delivered a brief address, in which he said: "My visits abroad have enabled me to see how greatly our foreign trade can be increased. In Europe it is already well taken care of, but in the East . America is only beginning to be known and appreciated. We are now badly reprented there, and will be until our poley shall be so changed as to allow our presentatives to increase their com-meation by acting as the business gents of American manufacturers and siness houses, thus making it to their terest to increase and develop our trade rather than to repress it, as is at present the case." In conclusion, the General said: "I had no idea of saying his much, and am almost sorry I have said it. I again thank you for the cordial welcome you have extendto me." The remarks of General rant were warmly applauded. Mayor Stokley stepping to the front the platform when General Grant finished said: "It is not a part of programme that I should say any-

ing that you can now see how useful, if he be ever again called upon 'officialthe general could administer the affairs of the nation, after his extensive and careful observations abroad." This remark evoked a spasmodic nd of applause. After a brief speech rom General Patterson the members exchange and invited guests med in a line, which approached the latform from one side and wound past neral Grant from the other side of e platform and out of the exchange uilding. Very little handshaking was done, as it begins to be understood hat General Grant is excessively bored by that sort of cordiality.

Mobile, Dec. 20,—The steamer Mag ie Burke, of the Montgomery and bile line, with 1,100 bales of cotton, was burned at 10 o'clock this morning her wharf, in a half hour after her ival. The fire broke out so suddenthat in a few minutes the steamer is in a mass of flames and soon burnto the water's edge About 200 bales cotton had been unloaded, but the nainder was destroyed by the fire damaged by water. The steamers dly and Annie barely saved themves by moving out immediately. The latter fortunately having steam up, was able to tow the other out. The loss on the boat and the cotton

together amounts to seventy-five thouand dollars, which is fully insured. Last evening about 8 o'clock the steamship Mobile arrived at her wharf amid the booming of cannons, blowing of whistles and cheering of the multitude which had assembled to welcome her here. This is the pioneer steamship of the direct line between Mobile and Liverpool. Captain Marrimon speaks in the highest terms of her sailng qualities. She made the trip from Queenstown to Mobile in twenty days and eighteen hours, having lost sixteen hours in a severe gale. Mobile can furnish profitable employment for sixteen more ships of the same kind.

Burned to Death.

Jacob Smith, a colored man was arrested last Saturday in Rocky Mt., for drunkenness and lodged in the lock-up. He remained in a stupor until about 3 o'clock, and it is thought he aroused at this time, and not knowing where he vas, lighted a match, which caught the bed-clothes, and set the house on fire. The 3 o'clock freight train came in as the flames showed themselves, and the engineer blew his whistle, waking up ome persons near the track, who saw the flames and ran to the lock-up and tried to break in, but could not do it or account of the fire having such headway. The dying man's groans were distinctly heard on the outside, and at last was heard to fall, after which he uttered no sound. The unfortunate man leaves a wife and one child.

when the train reached Graniteville, near Augusta, a row broke out between several of the colored brethren. Capt. Aleck Ficklen, conductor in charge of the train, undertook to quell the dis-turbance and to this end attempted to put the ringleader in this difficulty from the train. The negro resisted and was assisted by several friends, one of whom cut Capt. Ficklen in the back, severely, with a pocket knife. Capt. Ficklen struck his assailant, in return, with his punch and punished him considerably. Others of the party assaulted the conductor with their fists. The man who did the cutting, and several others, were arrested by the authorities at Graniteville and held for trial. On Tuesday last, deputy internal revenue collectors Hinton and Worth, in attempting to break up an illicit distillery in the southeastern portion of Guilford county, some seventeen or eighteen miles from Greensboro, were threatened with their lives by the party who had charge of the premises. On the officers approaching the distillery they were noticed by the parties in attendance, who made their escape from the building, and three of the five persons present having guns, stationed themselves behind trees some fifty or sixty feet distant, and informed the officers that if they attempted to enter the distillery they would be shot down in their tracks. As all the guns in the hands of the distillers commanded the front entrance or door of the distillery. the officers thought it best not to ven ture in front, but soon succeeded in making an entrance from the back part. As soon as they got in they commenced breaking up the hogsheads of beer, and in doing so, made noise enough to enable the distillers to hear them, when the party fired their guns into the distillery door but without doing any damage to the officers. The property found in the distillery, and destroyed by the officers, consisted of a seventy gallon still, two worms, sixteen hogsheads beer, six bushels meal, fifteen gallons singlings, and one gallon whisky. It is supposed the whisky made at this place was removed as soon as made, except a small quantity kept on hand to be dealt out to those who sympathise with them, and who receive their whisky as pay for giving notice of the approach of the officers of the law.

Financial. WASHINGTON, Dec. 19.-Secretary Sherman said to-day that during his visit to New York he would consult with the leading bankers and finan-ciers as to the probability of floating a 3½ per cent. bond for refunding purposes. The Secretary still says he does not believe the government can place successfully a bond paying less than 4 per cent. But Mr. Wood, the chairman of the ways and means committee, says there are responsible bankers who will take a 3½ per cent. bond at par. In reply to this Mr. Sherman says he has heard of no such offers, but if they are made from responsible parties he will use all his influence to have a 3½ per cent. loan authorized by Con-

THE LAST CREMATION.

CHARLES A. M'CREERY BURNED BY HIS OWN WISH.

The Story of the Cremation as Told by the Father--The Attendant Mystery.

New York Sun, 19th.

The body cremated in the crematory erected by the late Dr. Le Moyne in Washington, Pa., was that of Charles A. McCreery, son of James McCreery, the head of James McCreery & Co., dry goods dealers in this city. The mystery attending the cremation created more excitement and wonder in Wash. ington than the cremation of the body of the Baron De Palm. For some time the trustees of the Le Moyne estate had been in correspondence with the relatives of Mr. McCreery in regard to the use of the furnace for burning his body. The trustees declined to say anything, except that they were pledged to secreey, and that the necessary certificate of death would be signed by a physician in good standing. After the body had been burned it was rumored that it was that of Andrew Tracey, the young lawyer who was hanged in Smithport, McKean County, Pa., on the 4th inst., and it is said that the neck of the dead man was horribly discolored. Mr. McCreery lived with his father

in Inwood-on-the-Hudson. He was only twenty-four years of age, but for several years he had taken an active part in the business of the firm of James McCreery & Co., manifesting marked executive ability and very good business judgment, About two years ago the pulmonary trouble that had threatened him for some time became so deeply seated as to force him o give up his business life and devote nis time to an effort to conquer the disease. He withdrew from the firm and did all he could to regain failing health and strength. But his constitution could not withstand the attack upon it, and about two months ago he sank rapidly, and on Sunday morning, the 9th he died. He had many warm friends, and his death was sincerely regretted by the employees. He had a kind word for every person employed by the firm, and a never-failing regard for their welfare.

FRANKLIN.

FRANKLINTON, Dec. 20.—This has been a busy week to the merchants in supplying the demands of marriageists and Christmas. Franklin has let loose her marriage boom and it rages like a cyclone. Last Wednesday, by the Rev. M. Webb, Mr. John Whitfield and Miss Jennie Cooke, Mr. Robert Morris of Durham and Miss Della Williams and four other couples were married on the night of the same day in the vicinity of Franklinton and report said that sixteen couples were to be married in Louisburg and there are quite a number to be married next week,

Last Tuesday night the young gen-tlemen of Franklinton serenaded Mayor Beddingfield, who it is said appeared on his verandah, made them an elo-quent little speech and invited them in to partake of his hospitalities; but they say Professor Hines didn't receive them so kindly, for when they reached his house their instruments seemed to be mostly hautboys and sounded too much like the Philistines blowing down the walls of Jericho with rams' horns, as he ran out to recognize his serenaders; but they dispersed. He pushed one of them so closely that he ensconced in a hedge of osage orange bushes where he became inextricably entangled and had to remain until day. A bout daylight one of his companions of the night before in passing heard his groans and went to his relief.

On Thanksgiving day Hep. McGhee, John M. Pittman and Charles Moore went hunting. They killed five squirrels, twenty-three rabbits and seventy six partridges. They carried refreshments with them, but about twelve Charley became separated from the others and it was his good luck to fall in at Captain Fenner Harrington's where he done ample justice to the Thanksgiving turkey and the many other palatable and delectable edibles and bibulosities set before him. On Professor Proctor's night for the

meteoric shower several gentlemen who were desirous of witnessing the grand display took their fishing tackle and repaired to William's pond in order to keep awake. Coley Hight, the Franklin water drinker, and Captain Sandling desired to be of the party because they imagined it was going to be a fiery time and if so they wished to be as near water as possible. All things went well until about eleven o'clock when some one exclaimed, "look at when some one exclaimed, "look at that star falling," which was no sooner uttered than Hight was seized with ignisphobia and plunged into the nill pond. He needed fire a few minutes thereafter.

It is said that Willie Clegg has ginned upwards of 900 bales of cotton this season. He is thought to be ahead of any other ginner in the county, and he is said to be by far the best cotton salesman in Franklinton.

There were greater quantities of poul-try offered for sale in our market on yesterday, than we have seen at any time this season. Turkeys, chickens, geese or most any kind of fowl you wished, could be had dressed or alive. Wild duck and geese were also in abundance, and hanging in the market stalls we saw quantities of venison. In fact the market was better stocked on yesterday with meats, than we have seen this season.

Our market basin yesterday continued to be filled with boats, loaded with every thing in the way of cargoes. Each boat brought in its complement of passengers, which made every thing exceedingly lively in the vicinity of the dock. Our merchants are getting in large quantities of seed peas for the truck farmer; if we can judge the number of acres that will be seeded with peas by the number of bushels received by our merchants, then there will be a greater acreage, twice told, seeded this season than there has been heretofore. From what we see and learn, we should judge that between 700 and 1000 acres the coming spring will be cultivated in garden peas alone in the vicinity of this city. If such a thing twenty years ago had been suggested the one making the suggestion would have been considered crazy and a fit subject for the lunatic asylum, but now a man talks to you as unconcernedly about planting one hundred acres in peas, two hundred in Irish potatoes, fifteen or twenty in radishes, one hundred in watermelons, twenty-five or thirty in tomatoes, as he would talk formerly about planting the same number of acres in corn or cotton. The beauty of trucking is, that the same land that is sowed with peas, potatoes and radishes, will after the maturity of the crop, be cultivated in cotton, and so the farmer of the present day gets two crops where he formerly got but one.

Senator Kellogg's Case.

WASHINGTON, December 19.—Senator Saulsbury, chairman of the committee on privileges and elections, said to-day that no action had been taken in the case of Mr. Kellogg since the return of the sub-committee from New Orleans. and that the case would not be taken up until after the recess. He said it was too important a case to be acted on without care and deliberation, and that it would probably be some time before the committee reached a conclusion. To-day Governor Kellogg addressed a letter to Mr. Saulsbury, as chairman of the committee, setting forth various facts which he expected to prove and various allegations which he expected to disprove, and submitting a list of additional witnesses whom he requested to be summoned before the ommittee. If this request of Mr. Kel logg be granted it will have the effect to prolong the investigation. From what can be learned of Democratic intentions there may not be much opposition to this, as it is not believed that in any event the case will be finally acted upon by the Senate during the present session of Congress. If after the fall elections Democratic hold on the Senate looks precarious, Mr. Kellogg will doubtless be "bounced." But if the Democrats are assured of safe control after 1881 he may not be disturbed.

"BODY SNATCHING."

ROBBERY OF A COUNTRY CEME-TERY IN GEORGIA.

Inquiring the Way to the City of the Dead---Searching the Atlanta Medical Colleges.

Atlanta Constitution, 19th. Atlanta has a sensation similar to that

which so excited Chattanooga a few weeks ago. Considering the fact that body-snatching has long been practiced all over the country, and that medical colleges everywhere are every day dissecting subjects thus obtained, it is somewhat remarkable that there should be a sudden fit of public indignation on the subject. But there is such a feeling and it has recently been strongly developed in this section of the coun-

Yesterday morning when deputy sheriff Thomas went to his office he found awaiting him Mr. Pursley, Mr. Thomas and another man from Cobb county. They stated that they had come to secure the execution of certain search warrants which they had sworn out against the three medical colleges of Atlanta before Jesse Simpson, a justice of the peace in Marietta. They explained why they wanted this search made, and told the following story:

Last week Mr. William Johnson, an old and highly respected citizen of Cobb county, died after a short illness. His remains were buried last Thursday

afternoon near a Baptist church eight

miles from Marietta, on the Roswell road. On the following Saturday morning some of the friends of the deceased passed by the graveyard and noticed that the mound over the grave of Mr. Johnson appeared rough and irregular. Johnson appeared rough and irregular.
Later in the day they became so suspicious that they resolved to disinter the remains. They found pieces of clothing in the loose dirt in the grave. The coffin was reached, opened and found empty! The corpse had been snatched, stripped and carried off. The news of the theft spread over the county and created quite an excitement. The relations created quite an excitement. The relatives of the deceased, Mr. Johnson, were indignant and resolved to discover the mystery if possible. They succeeded in discovering the following

Late Friday afternoon a white man and a negre crossed the ferry near the graveyard in a light spring wagon. Mr. Pursley, who owns the ferry, carried them across. They asked many questions of him as to the direction and surroundings of the graveyard, and also inquired if they could get across the ferry at any hour of the night. Late at night it seems that they returned, but not by the same road. They crossed at a ferry higher up the river where they were seen by a Mr. Trout, and he states that they had something in the wagor which smelled badly. These men evidently stole the body, and the question As they came in the direction of Atlanta, it was naturally supposed that they had procured the body for some one of the three medical colleges in the city. The relatives of the deceased, therefore concluded to make a thorough search and a determined effort to capture and punish the guilty parties. Colonel Thomas told the three men that he would do all he could to aid them and at once started to execute the warrants. He procured the assistance of Patrolman Foute of the police, and visited every medical coilege in the city. The Eclectic medical college on Peachtree street, was thoroughly inspected, but it has no dissecting room and it was evident that the lost body was not there.

The Scuthern medical college was next visited and no sign of the snatched corpse was found. At both these colleges the faculty were courteous and showed the officers through with pleas.

ure. The Atlanta medical college was visited and likewise inspected. Colonel Thomas had told Mr. Pursley to keep sharp lookout for the men who were in the wagon. Mr. Pursley remembered the negro more distinctly than the white man and said he could easily identify him. He had learned that a negro named George had been seen last Friday night going toward Cobb county in a spring wagon, and had sworn out a warrant for the arrest of plain George. As he approached the Atlanta medical college with the officers, he saw George Vaughn, the colored janitor, standing near the gate, and at once said: "There's the negro who was in the wagon."

George was arrested and the officers entered the college with him. Dr. Willis Westmoreland was lecturing at the time. When he learned of the invasion of the officers, he offered to carry them through the entire college. They looked from top to bottom, in all nooks and corners, but found no trace of the missing body. In the dissecting room there were some subjects, but none of them could have been the corpse for which they were searching. Dr. Westmoreland offered to give bond in any sum for the janitor, but Colonel Thomas thought that, as the warrant was returnable to a Cobb county court, he had no right to bail the prisoner, or to allow it done in Fulton county. He was accordingly taken to the station-house, where he is still guarded. The Colonel telegraphed the sheriff of Cobb county that George Vaughn had been arrested, and asked him to send Mr. Trout at once to identify him if he should prove to be the man who was in the wagon.

Sheriff Stephens replied: "Hold him until Trout can come." Mr. Trout will reach Atlanta this morning and will see if George is the negro he saw in the wagon with the bad smelling bun-dle. If he so identifies him, he will probably be carried to Cobb county at once for a preliminary examination. The students and faculty regret the arrest of the janitor very much. He is a very faithful fellow and enjoys the con fidence of the whole college.

Twenty of the students will swear that he was here last Friday night and waited on them in the dissecting room. Dr. Westmoreland says he has twice spoken to other negroes for George on account of their close resemblance to him. His friends say they will, if necessary, spend \$1,000 to secure his acquittal of this charge. The officers who arrested George describe his manner as nervous when they approached him. The entire proceedings were so un-precedented in Atlanta that they created quite a sensation all over the city.

The medical men were especially aroused. Some of them deprecated the search of the colleges and declare that there was not sufficient ground for it. Others talk pleasantly about it, and say that the colleges must have subjects. Recently the city cemeteries have been so closely watched that the supply of "stiffs" has been drawn principally from country graveyards. They are in such demand that body snatching is a paying business. A good subject for the knife will bring \$100, and it is said

ous to invade the silence of the grave to seize its cold occupant and devote what is left of the human form to the purposes of science.

Cotton on the Sounds. Wilmington Review, 19th.

We have very frequently been told that cotton could not be successfully cultivated on the Sounds in this vici-nity, and that the lands were only suited to peanuts and other crops which are not exhaustive in their nature. Captain A. A. Moseley, of Scott's Hill in Pender county, informs us, however, that he has made an effort in raising cotton on his plantation, and that this year he secured 1,800 pounds of seed cotton from less than an acre of ground. This, by the usual mode of calculation, would give a 600 pound bale to the acre, which is better than is usually done on the farms in noted cotton localities.

The Ice Machine.

Wilmington Review, 19th. By invitation of Dr. J. E. Winants, the inventor and patentee, we visited the Cotton Compress warehouse to-day to witness the operation of his newly invented machine for the manufacture of ice. We regret that the pressure of business was such that it was impossible for us to remain and witness the entire process, but we remained long enough to see a part of the modus operandi and enough to satisfy us that his plan may be successfully worked, and ice made by steam power instead of by the natural process. By starting the engine a current of cold air was pumped through an iron pipe into the box where the ice is made, and in about two minutes the temperature was reduced from sixty to thirty degrees. This reluction in temperature was made with the top of the box entirely open. If it had been hermetically closed the reduction would have been, as a matter of course, very much greater. The Doctor told us that if we would wait an hour he would let in the water and make the ice, which we were very well satisfied be could do without difficulty. To our view the plan is made entirely feasible, and we hope that the patience, perseverance and ingenuity of the inventor may meet with a substantial reward.

Perquimans Tobacco. Elizabeth City Falcon.

We were presented some time since with a bundle of tobacco by Mr. Thomas Nixon, raised on his farm in Perquimans county. A few days ago a gentleman happened in our office, from he central portion of the State, who is familiar with tobacco raising and un-derstands the different grades and qualities of tobacco. Upon examination he pronounced the article we had in hand to be first-class, saying that with the roper curing it would have been of the bright vellow kind-the very best quality. As before stated, this tobacco was raised in our adjoining county of Perquimans.

Rev. J. B. Bobbitt, D. D. At the late session of the North Carolina Conference, Dr. Bobbitt was appointed agent of Trinity College. His appointment gives great satisfaction and encouragement to the friends of the college. The Doctor is a representative man in his Conference, a zealous and successful worker in whatever he undertakes. Thus far he has received contributions, as we learn, to the amount of more than twenty-one hundred dollars. This is a good beginning and the Doctor, it is believed, will re lieve the indebtedness of the college in a short time. The Methodist church in North Carolina is large and influential and will not suffer her only male college to be embarrassed with debt.

Justice's Court. The State vs. Christiana Keith and Medora Keith, for conspiracy, was the case before Justice Barbee yesterday morning. The warrant was issued on complaint of J. Hilary Keith, Esq., notable for having married one woman, who died, then her mother, who died, and then his present wife, winding up with seducing his daughter. He charged that the two women had conspired to kill him by shooting him, lodging several pounds, more or less, in his head and neck, which he kept there as a memento of conjugal love, and that he had overheard the agreement between the

women. When the parties were brought before His Honor the counsel for defense, A. G. Lewis, Esq., interposed with the point that the husband could not testify against his wife except in certain cases, and therefore asked that the case be dismissed. This was opposed by Mr. Pur-nell, and after much argument and reference to legal authorities the motion was sustained and the prisoners discharged.

This is an interesting point of law for the uninitiated, and may prove of benefit to justices not versed in legal love. Comparative Movements of Cotton in

ACTION OF THE REPUBLICAN NA-TIONAL COMMITTEE.

peculation as to its Effect - Grant, Blaine and Sherman - Machinery in Motion.

Baltimore Sun, 19th, WASHINGTON, Dec. 18 .- There has

been a great deal of discussion here today as to the moral effect of the action of the republican committee yesterday. The new chairman and the new secretary are both men who sincerely and earnestly advocate the nomination of General Grant for the presidency. Senator Cameron makes no secret of his belief that Grant will be a candidate, and he is known to be in the confidence of General Grant. Senator Cameron has repeatedly announced that the boom would start in Pennsylvania-that the Republican convention to nominate delegates to Chicago would be held in Harrisburg at an early day and open the ball by instructing those delegates to vote for the nomination of Grant. The men who assisted Cameron in the canvass for the chairmanship were all of them outspoken Grant men, and it is asserted here by those who are us-ually informed on such subjects that the proposition to make Cameron chairman of the committee originated in Chicago during the Grant reception there. It is a fact, however, that while many of the committee were open in their advocacy for Grant as a candidate nearly all of them assumed this preference because it is fashionable and popular, but at heart had another choice. One of the oldest and most experi-enced politicians present said to-day: I have regarded this Grant movement very closely because it is a political phenomenon, and I am convinced of several things: First, that Grant wants to be a candidate; second, that the mass of the people, particularly the soldier element, is for him; third, that the politicians as a rule are not; fourth that there will be but three candidates before the convention: Grant, Sher-

there will be a hot contest between Sherman and Blaine; fifth, that John Sherman would make the best President of the three, but he would be the hardest man to elect." Similar sentiments were expressed by other members of the committee. In the opinion of many of Mr. Blaine's friends the fact that the Democrats have "got away with him" in Maine, will be to his disadvantage as a candidate. Sen-ator Hoar says that the action of the

Democrats in Maine increases General

man and Blaine. If Grant comes into

the convention with sufficient votes pledged to nominate him, Sherman

and Blaine will not be heard of. If

Grant does not have a majority at the

start, he will not be mention

Grant's chances of nomination twentyfive per cent. It is understood here among Secre tary Sherman's friends that during his be a consultation of Eastern gentlemen who are favorable to him as a Presiden that candidate, with a view of arranging upon a plan of procedure. Now that the convention, date and place are fixed the several candidates will begin to put their machinery in motion, and Secretary Sherman has some very strong ad-vocates in New York and New England. Gen. Robinson, chairman of the Ohio Republican committee, has been here several days in close consultation with the Secretary, Col. Moulton and

The Florence Nightingale of the Nursery. The following is an extract from a

letter written to the German Reformed Messenger, at Chambersburgh, Penn:-A BENEFACTRESS, Just open the door for her, and Mrs.

Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's Soothing Syrup relieves the child from pain, and cures dysentery and diarrhoea. It softens the gums, reduces inflamation, cures wind colic, and carries the infant carfely through the teething period. It safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is a physical sa-viour to the infant race. Sold by all druggists. 25 cents a bottle.

Practical Economy. Before Patapseo Baking Powders was patented and placed on the market, consumers had to pay 50 cents per pound for the Old Rut Powders. You

can now buy Patapsco for about one-half that amount. This accounts for

the popularity of Patapsco. "Weil, there," said Spriggins, as he laid down the New York — after studying the Weather Department map intently for fifteen minutes: "I am blamed if I believe there is any man

GEO. C. JORDAN, Editor and Prop'r. THE exodus fund in St. Louis, says the Baltimore Sun, is again brought to the attention of the public by denunciations of a paper in that city edited by a colored man. The exodus board is charged, among other things, with wasting the money sent to help colored emigrants and the appropriation of hundreds of dollars to themselves while the emigrants were naked and starving. In all such enterprises, undertaken in violation of common sense and stimulated by delusion or knavery, just such results are sure to follow.

THE New Orleans Democrat makes the following hit at St. Louis: "Three days ago we learned that St. Louis intended to make Port Royal, S. C., its shipping port for Western produce. It is all changed since that time, however, and we are told by the St. Louis Times, of Saturday last, that Norfolk, Va., is the shipping port that St. Louis has so long been looking for. This is the tenth city of export that the St. Louis papers have discovered within three years, and yet the 'future great city' has never shipped two loads of grain from any one of these great harbors. St. Louis will be convinced some day, perhaps, that it must depend on the Mississippi and New Orleans as an outlet for its trade."

THE chairman of the House committee on the mode of counting the Electoral vote announced, the other day, that his committee would be ready to report a bill on this subject in a very short time. The Senate committee has a similar bill ready to report, and the two differ in only one provision, that relating to disputed votes. The House bill provides that if a dispute arises as to which set of electors shall be entitled to cast the vote of a State, the case shall be submitted to "the highest judicial tribunal of the State" for decision; whereas the Senate bill provides that it shall be submitted to "whatever State tribunal the State law may direct." It is probable that this slight difference may be arranged arranged and a bill reported to Congress in a short time that will meet with universal approval.

GALVANIZING.

For the past two weeks an effort has been making in certain quarters in the North to resuscitate Mr. Tilden's name in connection with the Presidency. The name of Mr. Speaker Randall is prominently mentioned in connection with this movement, and his name has been given out in such a manner that it gives no uncertain sound as to the fact that certain northern politicians propose to push the name and uphold the fortunes of Mr. Tilden with all their might and main.

It is time this nonsense was stopped. Mr. Tilden had his chance at the November election in New York. He was routed horse, foot and dragoons. Horatio Seymour, Jr., was the only one on the ticket that was squarely elected. He was popular and his uncle's name was a great aid. All this talk of harmonizing the factions in New York on Mr. Tilden's name is the merest bosh. That he is able to heat Tammany has been twice demonstrated, and it has been as fully demonstrated that Tammany is able to frustrate his hopes.

Mr. Tilden is personally unpopular in the South. The mention of his name creates no enthusiasm: on the contrary the mass of the people repudiate him and swear that he cannot get their suffrages. The only newspaper of influence south of Mason and Dixon's line that advocates his nomination is the Louisville Courier-Journal, and it must be conceded that on this subject the words of that powerful journal fall flat. The people say, "Give us Seymour, Bayard, Thurman, but no more Tilden. We had as lief vote for the devil."

This is the true state of affairs in the South. The Northern Democratic leaders must be careful. The Republican leaders of the South are carefully, steadily and silently working the Grant "boom." This fact foretells disaster to the party if Mr. Tilden is nominated. The Northern wing of the party may possibly overslaugh the Southern wing in the National Convention, but the party will lose the Carolinas and Florida, and possibly Virginia-the latter possibility depending on the action of General Mahone.

The South carries 138 Electoral votes. If three States are carried for the Republican nominee as against Mr. Tilden what chance has the Democratic party of success? To insure a Democratic victory the nomination must fall on Mr. Seymour or Mr. Bayard. Let the party take heed.

"BODY SNATCHING."

We publish to-day an article taken from the Atlanta Constitution relative to the robbery of a country graveyard near that city. It is but a few weeks since we chronicled a similar occurrence at Chattanooga. These things are becoming altogether too common. It is but a few years since that Michigan was overrun with these ghouls; then Ohio had a similar excitement; now it has broken out in Tennessee and Georgia. When will North Carolina be

similarly afflicted? In New York and Philadelphia, paupers are legally given to the dissecting rooms. Many physicians favor some such plan. They say science demands and will have subjects to dissect. The progress of medicine and the welfare of the human race demand them. If pauper graves are guarded, the tombs of the wealthy will be broken open. If city graveyards are kept safe, the quiet of the rural burying ground will be invaded. It is impossible to guard all the fresh corpses the world over, and the seizure of bodies will continue if there is not some provision made for a regular supply. We merely give these as the arguments of the physicians who have talked freely on the subject. On the other hand, there is a natural horror in the idea of robbing a grave and when the matter is

rising and the fellow who snatches one now can get almost any price he may ask for it.

THE CLEMENT ATTACHMENT. The Observer of yesterday has the

following question in regard to the Clement attachment: "If some of the brethren will pardon us, we would suggest that in regard to the Clement attachment and cotton factories generally, the question is not so much will.it pay? as it is does it pay? Certainly some factories pay. Now what do those who own and run the Clement attachment and the factories say about it? We hope they all-pay. But what are the results already obtained?" We think the fact that they do pay has been sufficiently demonstrated at the mill located at Westminster, S. C., and mills in Georgia, which have received the unanimous indorsement of practical tusiness men who have been at pains to visit them. We are of the opinion that the Observer is allowing itself to dwell too long on the New Berne failure, which failure may possibly be the fault of the operators-we cannot

We have had but one object in advocating the introduction of these millsthat they might inure to the benefit of the cotton-growing States. We do not ask the people to jump at them haphazard, but to view them in a fair light; to institute investigation; to sum up the results of those now in operation, and if they are convinced, to exercise their judgment as regards purchase. Our mind on this subject has been freely expressed before.

POLITICAL NOTES.

Senator Wade Hampton is reported as saying: "If Horatio Seymour should run he would be the favorite of the South; but I think there is nothing to be hoped for in his case. His health, I understand, would make it impossible for him to be a candidate. Mr. Tilden is dead, politically, here."

Senator Cameron, Republican, Wis., when asked lately about his experience with witnesses in Louisiana and what ought to be done with them, said that Le believed in an old fashioned Scotch Presbyterian hell, and he did not think even it would do justice to some of the

people he saw down there. The Leavenworth Times recently obtained the preferences of fifty newspapers published in Kansas on the Presidential question. A majority of the papers were outspoken for Grant for President and Blaine for Vice President. The Democratic papers harped

on Bayard and Seymour. A Massachusetts journal complains that our Presidents have got into a bad habit of arguing questions in their messages, and thinks that the President's bare announcement of his views would be always more effective than the longwinded arguments which few read or even care for.

In connection with the proposition to retire the greenbacks the following is juoted from a letter of President Buchanan, dated the 10th of December, 1861: "I never expected to see the day when the federal government would assume the power of issuing a paper currency, much less of making ica

George E. Wentworth, of Florida, is expected to succeed W. J. Purman, who is now living in Pennsylvania, as the Florida member of the National Repubican Committee. Jeremiah Haralson, the member from Alabama, is now an inspector in the Baltimore customhouse, and a new man will probably be chosen in his place.

Howard Carroll writes to the New York Times from Mississippi that there are four different classes of people in the South in favor of General Grant for President, but he fears they are not in earnest. All of them, he insists, are looking for something to turn up y which they can secure some personal or pecuniary advantage.

Mr. Singleton, of Mississippi, who has just returned to Washington, says that he favors Seymour for the nomination, but that with Indiana and New York the Democracy can win in 1880 with anybody as candidate. He says that the Republicans will get no South-ern State; the Democrats have them, and mean to keep them.

A Bayard club was organized in St Louis last week, and already numbers several hundred Democrats, including prominent merchants, attorneys and politicians. The preamble of the constitution of the clubs says: "The objects of this club shall be to urge upon the Democrats of the nation the policy of nominating Senator Bayard for the Presidency, and when nominated, of electing him.'

The Baltimore Postmaster.

Baltimore Sun. 19th. A suit was brought yesterday in the Court of Common Pleas by Miss Mary Murray against General Erastus B. Tyler, postmaster, for \$20,000 for assault. The declaration filed by her counsel, Charles J. Bonaparte and Ernest Riall, is brief, setting forth in legal phraseology that "the defendent, Tyler, on divers days and times did assault and beat the plaintiff, Murray, where-by she was greatly damaged." Miss Murray was a witness against General Tyler in the recent investigation of charges against him by order of the President, on complaint of Captain Matthews. General Tyler has been exonerated by the President, who received the report of the officials appointed to make the investigation. Since then General Tyler has discharged Miss Murray from a position she had held in the Baltimore postoffice by his appointment. The suit is based on circumstances testified to by Miss Murray in the investigation referred to. She al leges that General Tyler took advantage of her position as an employe and took liberties with her.

Elizabeth City Falcon. The Tilden "boom" has just about boomed its last. The latest news in regard to his position is very deleful to those who advocate his nomination. A Washington special to the Baltimore

"A number of gentlemen who are credited with being friends of Mr. Tilden have been circulating around the hotels and other frequented places in the last week, evidently with the purpose to gauge public opinion. It has been noticed here ever since the meeting of Congress that very few if any of the Democratic members of either house believe that Mr. Tilden either will or can be a candidate for the next Presidency, and it seems quite the general idea here that his name will not be prominently before the next Democratic convention. If there is one thing above another in this connection on which the Democratic leaders here appear to be agreed at this time, it is announced by one of the most prominent and influential of them, that the next Democratic nominee must be a man entirely acceptable to both wings of the Democratic party in the State of New

Rev. Drs. Jeter, Broaddus, Dickinson, (Bap.)
It is indorsed by the direct personal testinony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Editors Religious Herald, Va.

Chaplain Randolph Macon College, Va.
Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney. LL. D.,

Col. Va.

It is highly esteemed here by the regular Medical Faculty and the people. It is excellent for indigestion and flatulent colic, sedative, soporific, tonic, slightly aperient without nausea.

Rev. B. F. Woodward, P. E., Na. Cont. About twelve years I suffered from Dyspepsia. Falling in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Ve. I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I eyer knew. For prostration from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va.

It is a highly valuable remedy, and is more extensively used than any single article in the whoe list of medicines, so far as I observed in Imp practice, for all the complaint in familie from indigestion. I use it and recommend it.

Editor Richmond Christian Advocate.

This remedy is of tried virtue. I have seen Dyspepsia cured completely by it. It seems to be an antidote to our 'National Disease," The ingredients are not kept by the spotheseries, and have been difficult to

Behoid Me a Well Woman. CANCER.

MONTGOMERY, ALA., June 26, 1878. H. R. STEVENS, BOSTON. H. R. STEVENS, BOSTON.

DEAR SIR:—I have for years been a sufferer from a dreadful CANCER in my side which caused me untold agony, and as I am a widow with a family dependent upon my exertions for a support, my pain of body was only equalled by my pain of mind, at seeing my children want for bread. I was presented by a kind friend in Cincinnati with half a dozen bottles of Vegetine, and although one bottle is still untouched, behold me a well woman, completely restored in body and mind, and able to perform my accustomed duties. Long may you livel and may the history of my wonderful cure lead other like sufferers to purchase your valuable medicine, if it is with the last cent they possess.

possess. Yours gratefully, MRS. FULLER SUTT.

GOODMAN, MISS., May 6, 1878. H. R. STEVENS, BOSTON:
I have been suffering for 25 years with the Piles and found but little relief from any medicine that I have taken for many years past. Last winter I suffered considerably past. Last winter I suffered considerably worse than ever before, also in connection with Kheumatism I was confined to my bed for several weeks. Having procured a bottle of Vegetine I took it with good effect. I continued the use, and after taking four or five bottles, find myself comparatively cured. I can cheerfully recommend it for the benefits that I have received from it.

Yours respectfully,

J.W. TAGGART.

I can cheerfully recommend it Yours truly, JAS. M. TRAVIS. I write this to certify that I have known Mrs. Fuller Sutt from childhood, and have seen the hours of agony, that her patient womanh od has been called upon to endure. She has suffered untold agonies and dure. She has suffered untold agonies and now sits beside me in perfect health with her child upon her knee. The prayers of this grateful woman will ever be yours, my noble sir, and we add our testimony to the thousands that favor the greatest of all modern discoveries, 'Vegetine."

Yours respectfully, MRS. CHELLET SUMMER. SUFFERED 25 YEARS.

Piles, Rheumatism. LUNG DISEASE.

SELMA, ALA., May 12, 1872.

H. R. STEVENS, BOSTON:

I take great pleasure in recommending your Vegetine, I have been suffering for a long time with the Lung Disease; trying every kind of medicine that I could get, but none seemed to do me any good, until I tried your great Vegetine remedy. I had used it only a short time before I could discover a very great change in my health for used it only a short time before I could discover a very great change in my health for the better. I don't consider that your medicine has its equal, for the diseases which you propose to cure, especially the disease that I have been afflicted with JOHN THOMAS,
